

Choose a Wilma drip irrigation system and experience the flexibility of growing in pots, with the accurate feeding and increased yield benefits of active hydro.

Set the irrigation frequency with a timer, which triggers the drippers to automatically feed your plants.

Adoptez le système d'irrigation goutte à goutte Wilma et bénéficiez de la flexibilité de la culture en pots jointe à la nutrition précise et aux meilleurs résultats qu'offre l'hydroponie active.

Réglez la fréquence d'irrigation au moyen de la minuterie qui déclenche les gouteurs pour alimenter automatiquement vos plantes.

Wählen Sie ein Wilma-Tropfbewässerungssystem und profitieren Sie von der Flexibilität des Anbaus in Töpfen in Verbindung mit der präzisen Bewässerung und Nährstoffzufuhr und den verbesserten Erträgen der aktiven Hydrosysteme.

Die Bewässerungsfrequenz wird mit Hilfe einer Zeitschaltuhr eingestellt, die die Tropfer ansteuert, so dass Ihre Pflanzen automatisch bewässert werden.

Escoga un sistema de irrigación por goteo Wilma y experimenta la flexibilidad de cultivar en macetas, con la alimentación precisa y los rendimientos aumentados de la hidropnía activa.

Configure la frecuencia de irrigación con un temporizador, que ordena a los goteros alimentar automáticamente sus plantas.

Scegliete un sistema di irrigazione a goccia Wilma e sperimentate la flessibilità della coltivazione in vaso con i benefici dell'idroponia attiva: accurata nutrizione e maggiore rendimento.

Impostando la frequenza di irrigazione con un timer, i gocciolatori alimenteranno automaticamente le vostre piante.

Zvolte zavlažovací systém Wilma a zažijte pružnost pěstování v květináčích, společně s přesným vyživováním a vyššími výnosy aktivního zavlažovacího systému.

Pomocí časovače nastavíte frekvenci zalévání, která spustí kapkovače a automatické vyživování vašich rostlin
